OPI: OPEN INNOVATION COMPETENCIES

The OPI project, developed in partnership within UPIT (COORDINATOR; Romania), WARP (Austria), INNOHUB (Spain), CWEP (Poland) and E&D (Portugal), aims to develop and test a comprehensive methodology and tools for requalification of human resources to obtain professional competences for those future oriented positions in open innovation scope.

For HR related professionals and
Unemployed or employees in the need of requalification due to high unemployment risk as
a consequence of fast changing requirements of the job market.
